

Pilots

Professional Pilots have two goals:

Your safety and their own safety – 365 times a year.

Fun is guaranteed anyways!

We offer professional tandemflights 365 days per year. We are specialists and fly a lot. That is why you are guaranteed that we are well trained and on the highest technical level - always. We have more than 15 years of expertise in tandemparagliding and together we have collected thousands of flying hours - with zero accidents. We are calm, professional pilots and this is why we take our time to listen to your needs before takeoff.

Gernot is Mr. FlyMozart and the General of the Team and flies from Paragliders to Airplanes virtually any flying object. He has 15 years of Paragliding experience!

Tamas is a fully professional rated Tandempilot since many years. Extremely professional pilot!

Thomas has over 1.500 flights in his paragliding log and everybody loves him right away as he has a lot of humour.

Tom is a world class acro pilot and travelled with the famous "Renegades Acro Team" around the globe. This blond guy is a very experienced and talented pilot with an exceptional safety awareness.

Christian is a flying teacher and a pilot ever since but still needs to finish his documents for the tandem-license. We hope to have him onboard soon.

Michaela: is the only woman in the team (unfortunately). She is a very talented worldcup pilot and loves Tandemflying.

Michael is the freshman of the team and as he is very talented in soloflying he will soon be granted his full tandem license.
